Re: Open Records Request Related to Email Accounts  
Log No. \_\_\_\_\_

Mr. Chapman:

This is in response to the above referenced open records request, received on February 1, 2019, for the metadata of all emails sent or received by LFUCG during the month of January, 2019, and addressed to the Council Clerk's Office. It appears from the nature of your request and what we have been able to learn about the organization that the request is for a commercial purpose. A commercial purpose means the use of any part of a public record in any form for sale, resale, solicitation, rent or lease of a service or any use by which the user expects a profit either through commission, salary or fee. Pursuant to KRS 61.874(4)(b), I am asking for a certified statement from you regarding the purpose of your request.

Once you have provided the certified statement, we will further consider your request.

Sincerely,

\_\_\_\_\_  
Adam Stringer

This is a follow up to a previous request:

To Whom It May Concern:

I wanted to follow up on the following Kentucky Open Records Act request, copied below, and originally submitted on Jan. 25, 2019. Please let me know when I can expect to receive a response.

Thanks for your help, and let me know if further clarification is needed.

PLEASE NOTE: This request is not filed by a MuckRock staff member, but is being sent through MuckRock by the above in order to better track, share, and manage public records requests. Also note that improperly addressed (i.e., with the requester's name rather than "MuckRock News" and the department number) requests might be returned as undeliverable.

On Jan. 25, 2019:  
Subject: Kentucky Open Records Act Request: Request for Email Metadata (City Clerk)

To Whom It May Concern:

Pursuant to the Kentucky Open Records Act, I hereby request the following records:

For all email accounts under the management of this city, please provide me the following information for all emails sent and received during January, 2019:

1. From address
2. To address
3. bcc addresses
4. cc addresses
5. Time
6. Date

E-mail metadata is trivially exportable from the IT infrastructure of any modern e-mail archiving or data retention system - such as Microsoft Outlook 365, Google,

Datacove, etc. - and should be deliverable in a .CSV, .XLS, or other machine readable format.

Please note that I am not requesting the contents of each email. E-mail metadata does not include the contents of the specified e-mails, thus do not need individual review for redaction.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 3 business days, as the statute requires.

Sincerely,

Matt Chapman - Free Our Info, NFP
